In materia informatica il candidato elenchi i principali programmi per il disegno tecnico.

Testo in inglese:

From the beginning, Conan Doyle planned the death of Sherlock Holmes. In 1893 he wrote a story called "The Final Problem" in which Holmes dies. The reaction of readers was immediate. The popular magazine lost 20.000 readers, and people wrote thousands of letters to Conan Doyle asking him to bring Holmes back to life.

Testo in inglese:

To make money, Conan Doyle sent a short story about Holmes to a popular monthly magazine called "The Strand". Holmes soon became a big success. "The Strand" immediately asked Conan Doyle for more stories about Sherlock Holmes, but from the beginning he had a strange relationship with his famous creation: he did not think his stories about Sherlock Holmes were serious and artistic enough.

4. I principi e le nozioni dell'anticorruzione
5. I contenuti della convenzione urbanistica

In materia informatica il candidato descriva cosa si intende per documento informatico firmato digitalmente.

Testo in inglese:

Sherlock Holmes and Dr John Watson are two of the most famous and best loved characters in all of literature. But Sir Arthur Conan Doyle, their creator, was just as fascinating as his creations. When he finished his medical studies, he started working as a doctor in the south of England, but he was not successful. Very few patients came, so he had time to write.
